Dear Mr. Bishop:

The Office of Nuclear Material Safety and Safeguards is again updating its forecast of license applications to be submitted for resource planning and budget preparation. The forecasts are needed through FY87. Your input is important to help make our projections as realistic as possible and to assure that we will be prepared to review your applications expeditiously and efficiently when they are received.

Please complete as much as possible of the information requested on the enclosed form, including all anticipated activities (other than Safeguards) that may require licensing actions between receipt of this letter and October 1987. Safeguards matters will be handled by a separate telephone survey of appropriate licensees.

We appreciate that your long range plans may not be firm, but we do need your best estimates at this time. If a submittal date is uncertain or the application itself is tentative, please indicate this fact, and we will treat the data accordingly. In addition, if your longer range estimates only indicate a plan to construct a facility with no specifics, we would appreciate this information also. (Please indicate if the facility is anticipated to be in an Agreement State or a non-Agreement State since this will affect licensing responsibility.)

Please complete your response in time to reach this office by January 16, 1981.

We plan to repeat our request for this type of information about once a year. If you have any questions or require assistance in completing the survey form, please contact Mark Haisfield of the NMSS staff by telephone, (301) 427-4071 or 4520.

Sincerely,

151

R. S. Brown, Jr.

SUBJECT: NEW APPLICATIONS SURVEY

The NRC currently is developing data which will form the basis for our license application review scheduling, manpower and resource allocation planning, and budget preparation through 1983. As we have done in past years, we again are seeking your help in the form of certain information which this letter defines.

Please identify all applications and requests for review which you plan to submit to us between now and December 31, 1983, which should fall in one of the following categories:

- (1) reactor facility construction permit applications
- (2) reactor facility operating license applications - Note that submittal of operating license applications should be targeted for between 30-36 months in advance of the most realistic expected construction completion date. Please indicate the construction completion date on which your submittal date is based.
- (3) nuclear steam supply system and balance-of-plant standard reference design applications for: (a) Preliminary Design Approval (PDA); (b) Final Design Approval (FDA); and (c) PDA Extension
- (4) applications for Preliminary Duplicate Design Approval (PDDA) under the duplicate plant standardization option
- (5) applications for Independent Spent Fuel Storage Installations, as covered by 10 CFR Part 72
- (6) limited early site review applications
- (7) full early site review applications
- (8) other special project reviews

OFFICE ►
SURNAME ►
DATE ►

For the above categories, we need the facility or project name, submittal date, and type of review action requested for each item. Where applicable, we also would like to know the present stage of your planning; that is, are you making preliminary planning studies, have you requested proposals, have you let contracts?

Since antitrust information must be submitted from 9 to 36 months in advance of a construction permit application, please indicate, where appropriate, your planned submittal date for antitrust information on specific projects.

For those plants under construction permit review or under construction, which are not covered by item (2), above, please give us your most realistic current estimate of the construction completion date.

We appreciate that your plans regarding all the requested information might not be firm at this time. We would like the best estimates you can give. If a submittal date, or an application itself, or both are tentative, indicate that and we will treat the data appropriately.

In order for the requested data to be available in time to support budget cycle activities, we ask that you please respond to this letter on or before January 9, 1981 even if your response is a negative one. Should you have any questions concerning this letter or your response, please call Manny Licitra, Resources and Scheduling Branch, NRR, on 301-492-8958.

We make this forecast only once each year. Therefore, if your plans should change during the year, please let us know so that we can keep our data base current.

We appreciate your assistance.

Sincerely,

Hugh L. Thompson, Acting Director
Planning & Program Analysis Staff
Office of Nuclear Reactor Regulation

Description of Survey Data Items

Type of Request: New Facility, major modification, amendment, renewal, or
decommissioning

Description of Activity: Indicate clearly the type and capacity of fuel cycle facility,
transportation package, or independent spent fuel storage
Also describe the proposed process addition or modification,
or other anticipated request(s) requiring a licensing action

Estimated Application Date: Month and year application and supporting information is
expected to be submitted to NRC for review

Type of Request	Docket No. &/or Location	Description of Activity		Estimated Application Submittal Date
		Type of Fuel Cycle Facility/Package Type	Proposed Activity	

hours; \$281,204 Federal cost; 1 form; not applicable under 3504(h)
Barbara F. Young, 202-395-6880

In order to identify potentially affected workers, District offices will be instructed to ask all DIB applicants whether they are receiving another disability benefit. Responses will be noted in the "remarks" section of the SA-16, and depending on the type of other disability benefit received, the case will be coded. Upon enactment of the Social Security Amendments of 1980, the allowed claims stated under the code would be reviewed for further development and possible disposition of "Offset."

NRC plans to issue a letter requesting additional data from licensees on technical specifications for class 1E vital instruments buses.

SECURITIES AND EXCHANGE COMMISSION

Agency Clearance Officer—George G. Kundahl—202-272-2142

New

- Retention of Fingerprint Cards (17 CFR 240.17F-2(D))

On occasion

Businesses or other institutions

Mbrs. of a Nat'l Sec. Exchange, Brokers, Dealers, Etc.

SIC: 621, 628

Small businesses or organizations

Other advancement and regulation of commerce: 123,149 responses; 10,263 hours; \$102,630 public cost; 1 form; not applicable under 3504(h)

Robert Veeder, 202-395-4814

Processed fingerprint cards, together with criminal histories (if any) returned by the FBI to the entities. This requirement serves several purposes: (1) An employer receives and retains the information in order to make informed employment decisions and (2) the cards and other records illustrate compliance or non-compliance with rule 17F-2. These rules were adopted 3/16/76.

- Fingerprinting Plans of Self-Regulatory Organizations (17 CFR 240.17F-2(C))

Nonrecurring

Businesses or other institutions

Nat'l Sec. exchangers: The Amer., Boston, Midwest, etc.

SIC: 621, 628

Small businesses or organizations

Other advancement and regulation of commerce: 1 response; 1 hour; 1 form; not applicable under 3504(h)

Robert Veeder, 202-395-4814

Paragraph (c) of Rule 17f-2 (adopted 3/16/76) allows a national securities exchange or association to file with, and get approved by, the Commission plans allowing these entities to act as centers for collecting and disseminating fingerprint cards. This process is more effective and efficient because the FBI is not required to deal on a individual basis with thousands of submitting institutions.

- Application for and Registration of a National or an Affiliated Securities Association—Rule 15aa-1 and Form X-15aa-1

15aa-1 X-15aa-1 893

Nonrecurring

State or local governments

Organizations seeking registration as a NSA Assc.

SIC: 623

Small businesses or organizations

Other advancement and regulation of

commerce: 1 response; 150 hours;

\$5,400 Federal cost; 1 form; \$6,000

public cost; not applicable under 3504(h)

Robert Veeder, 202-395-4814

Under Sections 15A and 19 of the Securities Exchange Act of 1934 (the "act"), the Commission must make certain specified findings before it can grant an application for registration as a national securities association or as an affiliated securities association. Rule 15aa-1 and form X-15aa-1 adopted in 1939, are designed to provide the Commission with information which is necessary to enable it to make the required findings.

- Notice Pursuant to Rule 17f-2 (17 CFR 240.17f-2(e))

On occasion

Business or other institutions

Members of NSE and registered clearing agency

SIC: 621, 628

Small business or organizations

Other advancement and regulation of

commerce: 150 responses; 75 hours;

\$1,350 Federal cost; 1 form; \$750

public cost; not applicable under 3504(h)

Robert Veeder, 202-395-4814

Rule 17f-2(e), adopted on March 16, 1976, requires covered entities (see No. 23 below) to submit a notice identifying cases of persons claimed to be exempt from the statutory fingerprinting requirement. The information is used to ensure that appropriate persons are fingerprinted and that only fingerprinted persons have access to the handling and processing of securities, monies and original books and records relating thereto.

- Registratioin of Reporting Institutions in the Lost and Stolen Securities Program (17 CFR 240.17f-1(b))

Nonrecurring

Businesses or other institutions

NSE and members and banks insured by FDIC

SIC: 621, 623, 628

Small businesses or organizations

Other advancement and regulation of commerce: 1,400 responses; 700 hours; \$6,853 Federal cost; 1 form; \$30,800 public cost; not applicable under 3504(h)

Robert Veeder, 202-395-4814

Rule 17f-1(b), adopted on May 23, 1979, requires approximately 18,000 entities involved in the securities industry to register in the lost and stolen securities program in order to obtain access to a confidential data base set up to fulfill a mandatory statutory requirement that those entities report and inquire to missing, lost, stolen or counterieit securities. This information is needed to determine compliance with rule 17f-1.

- Fingerprinting Requirements for Securities Professionals (17 CFR 240.17f-2(a))

On occasion

Individuals or households/businesses or other institutions

Partners, dir., ofr., and employ. of mbrs of nat'l sec., etc.

SIC: 621, 628

Small businesses or organizations

Other advancement and regulation of commerce: 123,149 responses; 61,575 hours; \$1,490,600 Federal cost; 1 form; \$923,625 public cost; not applicable under 3504(h)

Robert Veeder, 202-395-4814

Rule 17f-2(a), which was adopted by the Commission on March 16, 1976, requires that securities professionals be fingerprinted. This requirement serves (1) to identify security risk personnel, (2) to allow an employer to make fully-informed employment decisions and (3) to deter possible wrongdoers from seeking employment in the securities industry.

- Records To Be Made by Broker-Dealers Rule 17a-3 (17 CFR 240.17a-3)
