Docket Nos. 30-02452  
30-00345

As a result of the inspection conducted on August 14, 1981, and in accordance with the Interim Enforcement Policy 45 FR 66754 (October 7, 1980), the following violations were identified:

- A. Condition 17 of License No. 29-02641-03 requires that licensed material be possessed and used in accordance with the statements, representations and procedures contained in application dated February 6, 1978 and letter dated July 5, 1978.

Item 7 of your "General Radiation Safety Regulations", an addendum to your license application, attached to the letter dated July 5, 1978, requires that all personnel working in the radioisotope preparation and elution areas monitor their hands and clothing after each procedure and prior to leaving the area.

Contrary to this requirement, as of the day of this inspection, August 14, 1981, personnel have not always monitored their hands and clothing after each procedure and prior to leaving the nuclear medicine area.

This is a Severity Level IV Violation (Supplement IV)

- B. 10 CFR 35.22(a) requires that spot-check measurements be performed on your teletherapy unit at intervals not exceeding one month.

Contrary to this requirement, as of the day of the inspection, August 14, 1981, the required spot-check measurements were not always performed at monthly intervals. For example, the only dates on which the tests were performed in 1981 were January 31, 1981, March 2, 1981, and May 8, 1981.

This is a Severity IV Violation (Supplement VII)

Pursuant to the provisions of 10 CFR 2.201, Hackensack Hospital is hereby required to submit to this office within thirty days of the date of this Notice, a written statement or explanation in reply, including: (1) the corrective steps which have been taken and the results achieved; (2)

corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Under the authority of Section 182 of the Atomic Energy Act of 1954, as amended, this response shall be submitted under oath or affirmation. Where good cause is shown, consideration will be given to extending your response time.
