OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

RE: The Cleveland Electric Illuminating Company (Perry Nuclear  
Power Plant, Units 1 and 2) Docket Nos. 50-440 and 50-441

Dear Mr. Silberg:

According to the "Application for Utilization Facility Construction Permit and Operating License" (Am. 25 (8-25-76)) the Applicants for the PNPP operating license are : (a) Duquesne Light Company; (b) Ohio Edison Company; (c) Pennsylvania Power Company; (d) The Cleveland Electric Illuminating Company; and (e) The Toledo Edison Company. Also within that Application are the averments for each of those corporations that each is "not owned, controlled, or dominated by an alien, foreign corporation, or foreign government." The inclusion thereof is ostensibly pursuant to the requirement of 10 CFR section 50.38, entitled "Ineligibility of Certain Applicants."

Ohio Citizens for Responsible Energy ("OCRE") is concerned that some or all of the above-mentioned corporation/Applicants may no longer be in a position to make said averments, and as such, would no longer be eligible to receive an operating license for PNPP.

To reassure this Intervenor and possibly the Licensing Board, could you please supply OCRE with the most recent complete listing or enumeration of all stockholders, bondholders, other owners, or all other persons who submit at least partial influence upon the machinations of the five companies mentioned above? Please also provide an up-dated list of each company's directors.

OCRE adds that the Directors lists provided in the Application, containing exclusively domestic addresses, should not be interpreted as prima facie compliance with 10 CFR section 50.38. OCRE does not and thus pursues this further investigation.

Sincerely,

Robert Alexander  
OCRE Interim Representative
