Dear Mr. Miraglia

Tonight's newspaper indicates that you and your staff will be in Seabrook N. H. on Dec. 2 to review the Public Service's Commission application to operate the Seabrook Nuclear Power Plant. I will be unable to attend the Public Hearing at the Seabrook Fire Station but I would like to be recorded as favoring the licensing of the plant.

I feel that Nuclear power is the safest most desirable source of power for the future of
YEO3
5/10

New England and the U.S. as
it will lessen our dependence
on foreign oil and does not
contribute to the acid rain
problem that coal generating
plants are known to contribute
to.

Respectfully

James H. McConell
