RE: The Cleveland Electric Illuminating Company
(Perry Nuclear Power Plant, Units 1 and 2)

Dear Bob:

By letter dated November 20, 1981, you requested "the most recent complete listing or enumeration of all stockholders, bondholders, other owners" of the five Applicants in this proceeding, as well as an up-to-date listing of the companies' directors. Your letter also stated that some or all of the Applicants may not be in compliance with 10 CFR § 50.38. That provision provides that companies which are owned, controlled, or dominated by an alien, a foreign corporation, or a foreign government are ineligible for licenses.

In our November 25, 1981 phone conversation, I pointed out that your letter appeared to be a discovery request that was unrelated to an admitted contention. Under Commission rules, such a request would be inappropriate. I also noted

that the stockholder listing would be a mammoth document, given the very large number of stockholders. You indicated that the November 20 letter should not be construed as a discovery request. We agreed that I would try to put together readily available information on the number of shareholders and how many were foreign. That information is enclosed. Also enclosed is a current listing of the directors of each company.

As I stated during our call, I am aware of no information which would indicate that any of the Applicants would be ineligible under 10 CFR § 50.38 to obtain an NRC license.

Very truly yours,

Jay E. Silberg
Counsel for Applicants
