Dear Kathleen:

Pursuant to our conversation this afternoon, enclosed is a copy of the transcript of the October 23-24, 1980 meeting of the San Onofre Unit 1 Steam Generator Sleaving Review Board.

As I explained in my phone conversations with you and with Peter, and in my November 24, 1981 letter to Peter, the transcript of the Review Board meeting was submitted to the Nuclear Regulatory Commission in Docket No. 50-206, San Onofre Unit 1, in support of Southern California Edison Company's request for an operating license amendment. The document has not been submitted in the Point Beach docket. Wisconsin Electric Power Company ("Licensee") is providing the document to Decade in this docket only in response to certain of "Decade's First Interrogatories and Request For Production of Documents To Licensee On The Demonstration Sleaving Program."

Listed below are the transcript pages which are generally responsive to the identified interrogatories. When we had doubts as to whether a particular excerpt was responsive to an interrogatory, we included the pages on the list.
