REGULATORY OPERATIONS

October 25, 1974

Mr. James R. Miller  
Chief Directorate of Licensing  
Atomic Energy Commission  
Washington, D. C. 20545

Dear Mr. Miller:

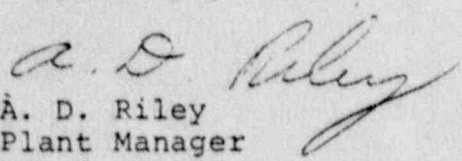

After reviewing the Commission's additional requirements for our submission of a current Source Materials License Application (SUB-526), we find the earliest feasible date for submission of this application is February 20, 1975.

Upon completion of the license application, we will begin drafting the Environmental Assessment document. The expected submission date for this document is June 20, 1975.

You may be assured that we will make every effort to submit these documents prior to the dates indicated.

Please contact us if you have additional questions concerning this matter.

Very truly yours,

  
A. D. Riley  
Plant Manager

cc: Mr. J. C. Bishop  
Mr. R. W. Yates
