Administrative Change to the Arkansas Nuclear One
Industrial Security Plan Resulting from Management
Changes and Minor Grammatical Corrections - Rev. 18

Gentlemen:

In accordance with 10CFR50.54(p), attached is the original plus three (3) copies (Copy Nos. 1-4) of Revision 18 to the Arkansas Nuclear One (ANO) Industrial Security Plan. A brief description of the changes made in this revision and the revised page to the plan are attached. It was determined by Arkansas Power & Light Company that these changes do not decrease the safeguards effectiveness of the plan and, therefore, may be implemented without prior NRC approval.

This revision incorporates management changes at the corporate level, and minor grammatical corrections to the plan. These changes and the timing of this submittal were discussed with Mr. Dale Powers of the NRC Region IV Staff on March 5.

The attachment contains Safeguards Information of the type specified in 10CFR73.21 and, therefore, should be withheld from public disclosure.

Very truly yours,

James M. Fisicaro
