

February 13, 1990

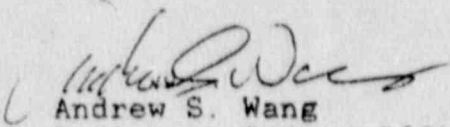

Mr. James L. Lynch
Radiation Specialist
US Nuclear Regulatory Commission
799 Roosevelt Rd.
Glen Ellyn, IL 60137

Dear Mr. Lynch:

This is to inform you that we have followed your suggestion to change cpm to dpm in our record keeping right after your on-site inspection on January 26, 1990. In fact, our cpm is very close to dpm, because the counting efficiencies is 99.5% for our scintillation counter.

I understand that Dr. Warren Springer has discussed with you about the missing ^{32}P shipment. If you have any further questions about our operation at NK Stanton Research Center, please let me know.

Sincerely yours,

Andrew S. Wang
Radiation Safety Officer

Seeds and service second to none.™
