OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH April 11, 1990

The Secretary of the Commission
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Docketing and Services Branch

Gentlemen:

We feel very strongly that the State of Illinois should have regulatory control of the Kerr-McGee facility in West Chicago.

We do not want low-level radioactive waste buried in West Chicago.

Also, we would want the decision for Illinois control to be made as soon as possible as this matter has dragged on for too long, the Kerr-McGee facility should be cleaned up and

the radioactive material taken to
a safe and appropriate disposal
site.

Sincerely,

~~John D. Kosifas~~
