Docket No. 50-312
Rancho Seco Nuclear Generating Station
License No. DPR-54
ANNUAL RADIOLOGICAL ENVIRONMENTAL OPERATING REPORT FOR 1989

Attention: George Knighton

Rancho Seco Technical Specification 6.9.2.2.1 requires submission of the Annual Radiological Environmental Operating Report by May 1 of each year. We request an extension of the date of submission of our 1989 Report to June 15, 1990. This request has become necessary due to a legal dispute over our payment with the contractor for analysis of our environmental monitoring samples, resulting in a two month delay in completion of necessary analysis and reporting of results.

Should there be any reason that the new submission date of June 15, 1990 is not acceptable to you, please contact Jerry Delezenski at (209) 333-2935, extension 4914.

Sincerely,

Dan R. Keuter
Assistant General Manager
