Senior Vice President-  
Nuclear Operations  
Georgia Power Company  
P.O. Box 1295

Dear Mr. Hairston:

SUBJECT: GENERIC LETTER 83-28 (TACS 53678 AND 53679)

Reference my letter of December 20, 1989, Subject: Generic Letter 83-28, Equipment Classification Program for All Other Safety-Related Components at Edwin I. Hatch Nuclear Plant, Units 1 and 2.

The referenced letter provided a copy of the NRC staff's Safety Evaluation and the supporting contractor's Technical Evaluation Report related to Item 2.2, Part 1 of Generic Letter (GL) 83-28, and stated that the GPC response to this item was acceptable. Our letter further stated that review was continuing on Part 2 of Item 2.2, and that except for that single remaining issue, review of all GL 83-28 issues for Plant Hatch was complete.

On March 20, 1990, the NRC issued GL 90-03, "Relaxation of Staff Position in Generic Letter 83-28, Item 2.2, Part 2, 'Vendor Interface for Safety-Related Components'." GL 90-03 supersedes the remaining effort on Item 2.2, Part 2 of GL 83-28 and will be tracked by the staff as a separate action. Thus, we consider Item 2.2, Part 2 to be closed, and since this was the only remaining open issue, we consider the GPC response to GL 83-28 to be complete.

Please call me if you have any questions.

Sincerely,

/S/
