Subject: Catawba Nuclear Station, Unit 1
Docket No. 50-413
Steam Generator Report

Gentlemen:

My letter submitted on March 20, 1990 contained two typographical errors. The first sentence mistakenly references Technical Specification 4.4.4.5d. This should be Technical Specification 4.4.5.5d. In the section listing number of tubes plugged, for Steam Generator D, this number was given as 57, it should be 52. The number of tubes plugged in Steam Generator D can be verified on Attachment 7 of my original submittal.

Very truly yours,

A handwritten signature in cursive script that reads "Hal B. Tucker".
