OFFICE OF SECRETARY
Sharon Majewski
209 N. Oakwood Avenue
West Chicago, IL 60185

The Secretary of the Commission
U S Nuclear Regulatory Commission
Washington, D C 20555
Attn: Docketing and Services Branch

April 17, 1990

To Whom It May Concern:

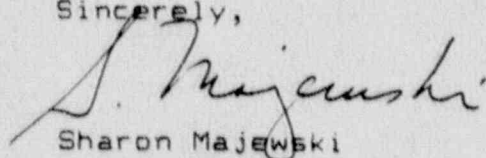

As a resident of West Chicago, Illinois, I am very concerned about the radioactive dump site that may be permanently stored in our town.

I purchased my home not knowing about the Kerr-McGee factory or the radiation in our area. As a citizen of the United States, I did not think (naive as it was) that I had to check out the area before I purchased my home. I trusted our government to provide a reasonably safe area for me to live.

I am an honest, hardworking citizen. I pay my taxes and vote. I ask one small thing of my government - to not force me to live in an area where a twenty-seven acre forty-six foot high mound of radioactive material will be stored.

Please give control of this property to my state.

Sincerely,

Sharon Majewski
