Dear Sirs:

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

As long time residents of West Chicago, Ill. we are strongly opposed to the burial of thorium by Kerr-McKee in our town. This entire situation should not have been allowed to happen. We support the request for Illinois to take control. This should be done before Kerr-McKee is given permission to bury it here. They should seek disposal away from homes + schools.

We appreciate anything you can do to work for the safety + benefit of the citizens of West Chicago, Ill.

Sincerely,
Mr. + Mrs. Thomas Pinner
