OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

Dear NRC,

I am writing to express my concern about Kerr-McGee burying their radioactive waste in West Chicago. Although we live outside West Chicago's city limits, we have a well that supplies our water for our house. And for the future of our two small children, we would like to see it not threatened. We strongly urge you to turn your control over to the state of Illinois and let our children not have to worry about living near West Chicago. "Safe enough" does not give us a 100% guarantee that we are or will be safe. Please consider our concerns carefully and let the people of West Chicago live in peace by moving this waste where it
