NUCLEAR REGULATORY COMMISSION

REGION IV

611 RYAN PLAZA DRIVE, SUITE 400 ARLINGTON, TEXAS 76011-8064

MAR 8 1993

Docket No. 030-30996 License No. 15-26978-01

COMO Tech Inspection ATTN: Mr. Ray E. Hiersche P.O. Box 292 DeSoto, Kansas 66018

SUBJECT: NRC INSPECTION REPORT 030-30996/93-01

This refers to the routine, unannounced inspection conducted by Mr. Gilbert L. Guerra, Jr., of this office on February 24, 1993. The inspection included a review of activities authorized by Byproduct Material License No. 15-26978-01. At the conclusion of the inspection, the findings were discussed with members of your staff.

The inspection was an examination of activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, independent measurements, and observation of activities in progress.

No violations or deviations were identified; therefore, no response to this letter is required.

The inspector noted that the licensee employed four radiographers and that about 50 percent of their work was conducted in NRC jurisdiction. The audits and records required by regulations were very detailed and complete with all required information.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact the inspector identified above at (817) 860-8100.

Sincerely,

Charles Z. Odin

Charles L. Cain, Chief Nuclear Materials Inspection Section
