Docket No. 50-219

LICENSEE: GPU Nuclear Corporation

FACILITY: Oyster Creek Nuclear Generating Station

SUBJECT: SUMMARY OF PROGRESS REVIEW MEETING REGARDING STATUS OF
LICENSING ACTIONS

On Tuesday, March 16, 1993, a meeting was held at the Energy Spectrum, Oyster Creek Nuclear Generating Station with GPU Nuclear Corporation (GPUN, the licensee) to discuss the status of Oyster Creek licensing actions. Enclosure 1 is the list of individuals participating in the discussion.

Enclosure 2 is a marked-up copy of the staff's Project Manager Report (PMR) dated March 12, 1993, for Oyster Creek. The markup to update PMR resulted from the discussion on each item or TAC number in this meeting. The status of each item is given in the last column on the right-hand side of the PMR sheets. The status in that column is the following: "01" means the licensee, "02" means staff reviews, "03" means staff's Project Manager and "04" means complete.

The updating of the PMR for Oyster Creek was done during the discussion on each licensing action in this meeting. The licensing action items are listed by TAC number (left-hand column of PMR.)

The licensee also discussed future issues which it would like the NRC staff to consider. We advised the licensee that we would consider these items when they are finally submitted.
