

MAR 18 1993

Docket No. 50-443

Mr. Ted C. Feigenbaum
Senior Vice President and Chief Nuclear Officer
North Atlantic Energy Service Corporation
Post Office Box 300
Seabrook, New Hampshire 03874

Dear Mr. Feigenbaum:

SUBJECT: NRC INSPECTION REPORT NO. 50-443/93-02

This letter transmits the report of the safety inspection findings of the resident staff at Seabrook Station for the period of January 26 through March 1, 1993. The inspection consisted of document reviews, personnel interviews, and observations of activities important to the health and safety of the public. The inspector discussed the findings with Mr. W. DiProfio and members of your staff after the inspection.

Overall, this inspection found that activities were conducted safely. Two violations described in your licensee event reports concerning incomplete surveillance tests were not cited based on your identifying and correcting the deficiencies. A violation for not including previous occurrences in a licensee event report was not cited based on the low safety significance of the unintentional omission and your corrective actions.

Thank you for your cooperation.

Sincerely,

A. Randolph Blough, Chief
Projects Branch No. 4
Division of Reactor Projects
