Dear Ms. Dandois:

Review of Invoice XB0090-93

The purpose of this letter is to identify an apparent error in the subject invoice and request a correction to this invoice pursuant to the provisions of 10 CFR 15.31, "Disputed Debts". Invoice XB0090-93, dated February 22, 1993, identified \$33,096.00 in charges for licensing actions for the period from March 22, 1992 through June 27, 1992. Portland General Electric Company (PGE) has reviewed this invoice and determined that the charges associated with TAC Item 77987 were incorrectly assessed.

As discussed with Mr. Ramin Assa, Acting Nuclear Reactor Regulation Project Manager - Trojan, and Ms. Leah Tremper, License Fee and Debt Collection Branch, activities associated with this TAC Item were completed on January 31, 1992 with the issuance of Amendment 177 to NPF-1. However, Invoice XB0090-93 identifies \$1,495.00 in charges for the period of March 22, 1992 through June 27, 1992 related to TAC Item 77987. PGE requests that the NRC investigate these charges pursuant to the provisions of 10 CFR 15.31. Pending resolution of this matter PGE will withhold payment for the disputed amount (\$1,495.00) of the invoice. The remainder of the charges in Invoice XB0090-93 will be paid by the due date of March 24, 1993.
