Material is currently under review by the Regulatory Review Group Steering Committee for placement in the Public Document Room. This material reflects progress to date and some initial recommendations on which comments would be welcome. This material will not be available until after April 26, 1993. While this will permit only a limited review by interested parties, we still believe a meeting is warranted. As additional material is developed and draft recommendations finalized the material will be modified on approximately a monthly basis and public meetings held to receive comments or answer questions.
