Crystal River Unit 3
Docket No. 50-302

April 14, 1993

3F0493-04

U. S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, D. C. 20555

Subject: Licensee Event Report (LER) 92-06-01

Dear Sir:

Enclosed is Supplement 1 to Licensee Event Report (LER) 92-06 which is submitted in accordance with 10 CFR 50.73. This supplement reflects a change in the corrective action implementation schedule.

This change in the corrective actions does not effect the safe operation of Crystal River Unit 3 since only 12 supports spread among six different systems are affected and the factors of safety are above 2.0.

Sincerely,

G. L. Boldt
Vice President
Nuclear Production
