SUBJECT: NRC INSPECTION REPORT 030-33004/93-01

This refers to the initial, announced inspection conducted by Mr. Gilbert L. Guerra, Jr. of this office on April 20, 1993. The inspection included a review of activities authorized by Byproduct Material License No. 35-27455-01. At the conclusion of the inspection, the findings were discussed with your staff.

The inspection was an examination of activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, independent measurements, and observation of activities in progress.

During this initial inspection, the inspector discussed the requirements with which you must comply, including the NRC and Department of Transportation regulations, and the commitments in your license application. The NRC enforcement policy was also discussed at this time.

No violations or deviations were identified; therefore, no response to this letter is required.

During the course of the inspection, the inspector examined your use areas and storage area. He determined that your facilities were adequate for your licensed activities.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be placed in the NRC Public Document Room.
