Attention: James A. Jones

Reference: Control No. 97991

Dear Jim:

In response to your letter of March 22, 1979. I have requested that Nuclear Radiation Development supply to me the results of the prototype testing conducted on the source assemblies which they will produce for our use in the Model DI-4A ICSD.

I have sent prototype units to Western Radiation Consultants for the drop testing and radiation measurements. I will forward to you this data as soon as it is available to me.

If you have any further questions, please contact me.

Sincerely,

Robert E. Butchko  
Chief Radiation Protection Officer
