

Oconee Technical Specifications - 3.10

- 3.10.1.c Change to read the same as 3.9.1.c.
- 3.10.2 Replace the words "the end of the quarter" with "incurring the reporting requirement."
- 3.10.5.a Change to read - "The gaseous waste tanks shall be maintained and operated for the purpose of keeping releases within the objective of these specifications and shall process all radioactive gases from the vent gas header prior to their release when the activity released during any calendar quarter exceeds one fourth the annual release quantities as determined by the objectives of this specification."
- 3.10.5.c Add - "As far as practicable, release of radioactive gas will be coordinated with favorable meteorological conditions."
- Page 3.10.3 Bases, second paragraph, first sentence - change "5 mrem" to "10 mrem."
- Page 3.10-4 Bases, paragraph beginning "The I-131" - add the sentence, "A survey will be conducted once per year to verify the absence of milk producing cows within a five mile radius of the plant."
- Page 4.1-9 Table 4.1-3 - Include sensitivity of analysis in this table. Make this table consistent with the reporting requirements given in Table 6.6-1, page 6.6-10.
