

Docket No. 50-10

APR 18 1961

Board of Supervisors
Grundy County
Morris, Illinois

Gentlemen:

The Atomic Energy Commission has recently established the procedure of informing municipal or county officials of license applications for nuclear reactor facilities and Commission actions regarding such applications.

In line with this procedure we are enclosing a copy of a report dated April 8, 1961, of the Commission's Advisory Committee on Reactor Safeguards, relating to the Commonwealth Edison Company's Dresden nuclear power plant. This report deals with recent Committee consideration of proposed new control rod blades for the Dresden reactor and certain modifications in operating procedure.
