Mr. John Ahearn
Chairman, USNRC

December 15, 1980

Docket 50-289SP
Unit #1
Middletown, Pa

Dear Mr. Ahearn,

It is my understanding that the NRC is finally going to consider allowing Unit #1 at Three Mile Island to go back into operation. I support that action on the part of NRC. We need nuclear power in this country and we need a regulatory commission that can deal with the technical safety considerations in a responsible way.

I hope you agree that we need these two things and that as Chairman you will work toward that end.

Very truly yours
Jack Williams
