~~DOCKET NUMBER 50-289, 30, 70, 150
PROPOSED DATE 12/24/80~~

Dear Honorable John F. Ahearn:

As the N.R.C. gives serious consideration to the reopening of Unit #1 at T.M.I. and the clean-up of Unit #2, I hope you consider my and the views of several million other Pennsylvanians and the views of several million other Pennsylvanians Unit #1 should not be reopened. There are innumerable reasons for barring restart of Unit #1, which the anti-TMI intervenors are delineating, weigh those arguments and understand that they reflect the opinion of millions of other Pennsylvanians we want TMI #2 cleaned up safely and efficiently, with maximum emphasis placed upon public health and safety, rather than G.P.U.'s profits. After #2 is cleaned up, it should be decommissioned and shut-down permanently as a nuclear facility.

Cordially,
Margda D. Margda
