001917
TO NRC,

DOCKET NUMBER FR-30, 32, 70, 150-
PROPOSED RULE (45 FR 70374)
SMELTED ALLOYS

DEC 29 1980
Office of the
Secretary

I WAS APPALLED WHEN I HEARD YOUR CONCEPT OF THE GREATEST "IDEA" OF YOURS CONCERNING THE SCRAP WITH WAY YOU INTEND TO BE RID OF CONTAMINATED SCRAP METALS, I.E. SMELTING THE SCRAP WITH OTHER METALS AND DISTRIBUTING IT INTO CONSUMER GOODS!! THIS ANIGERS ME TO THE UTMOST DEGREE. I'M AFRAID THAT IF YOU CAN'T TAKE PROPER RESPONSIBILITY FOR THE WASTE YOU PRODUCE, THEN MAYBE ITS TIME TO CHANGE OVER TO SOMETHING MORE CLEAN AND EFFICIENT. ITS BAD ENOUGH THAT YOU'VE BUILT AS MANY NUCLE PLANTS AS YOU HANE, ENDANGERING SO MANY LIVES NOW AND IN THE FUTURE, BUT TO DELIBERATELY STUFF THE HARMFUL ELEMENTS IN OUR MOUTHS IS GOING JUST A BIT TOO FAR, ITS BEGINNING TO APPEAR THAT EVERY STEP YOU PEOPLE AT THE NRC. TAKE IS ONE MORE STEP TOWARDS THE END OF US HUMANS AS A RACE. WHY? AREN'T YOU CONCERNED IN THE LEAST FOR THE FUTURE?

SO, IN CONCLUSION, I SAY THAT I AM FERVENT AGAINST THIS PROPOSAL, AND I HOPE TO GOD THAT IT FAILS, AND THAT YOU EITHER LEARN OF EFFICIENT + SAFE WAYS TO DISPOSE OF THE CONTAMINATED SCRAP, OR DISCONTINUE NUCLEAR POWER AUTOCETHER.

Respectfully,
Eugene J. ...
