Docket Nos. 50-440
and 50-441

MEMORANDUM FOR: D. H. Muller, Assistant Director for Environmental Technology,
Division of Engineering

FROM: Robert L. Tedesco, Assistant Director for Licensing, Division
of Licensing

SUBJECT: REQUEST FOR ENVIRONMENTAL REVIEW FOR PERRY 1 AND 2

Until recently, the Perry 1 & 2 environmental review was scheduled to be performed under contract at the Argonne National Laboratory. We understand that this review will now be performed by members of your staff. The purpose of this memorandum is to present schedule information in regard to the Perry review and to request that you assign members of your staff for this review. We further understand that you will assign one member of your staff to coordinate the environmental team review.

The completion dates for the Perry Nuclear Power Plant, as determined by the NRC Fuel Load Forecast Panel, are July 1982 for Unit 1 and May 1987 for Unit 2. Currently, construction for Unit 1 is 65% completed and Unit 2 is 50% completed.

Consistent with the above completion date for Unit 1, we have projected the following schedule for the environmental review:

EA Acceptance Review	-	2/81 to 4/81
EP-OL Docketed	-	5/81
DES	-	1/82
FES	-	6/82
Hearing Started	-	1/83
Hearing Completed	-	3/83
OL Issued	-	7/83

OFFICE							
SURNAME							
DATE							

The Perry ER-OL was tendered on June 20, 1980 and consists of two volumes. Copies of the ER were distributed to the Environmental Technology Branches at that time.

The Perry FSAR was tendered on September 12, 1980 and docketed on January 30, 1981. A Federal Register notice has been prepared concerning the docketing and offering an opportunity for public hearing. The notice will be published on February 13, 1981.

Please send me a listing of your assigned coordinator and review team members and inform me if you anticipate any problems in meeting the proposed schedule for the Perry review. Also, send copies of the list and comments to Dean Houston, Project Manager, Licensing Branch No. 2.
