Mr Ivan Smith  
Atomic Safety & Licensing Board  
25 N. Court St.  
Harrisburg Pa., 17101

Mr Ivan Smith,

Please allow the

restart of T. H. 1 #1. We are  
tired of paying these high  
electric bills. Why continue  
to penalize Met-Ed when you  
allow other utilities with  
the same type reactors who  
have made corrections to start up.  
This is unfair to Met-Ed.

(OVER) 3-3-81

If ~~the~~ Met-Ed goes bankrupt  
and the government takes over,  
then we will really find  
out what high electric rates  
are. They will appoint and  
hire 1,000 people to do the  
job of 100. Why not give  
Met Ed one more chance?
