Secretary of the Commission  
U.S. Nuclear Regulatory Commission

DOCKET NUMBER

PROPOSED RULE

PR-50  
46 FR 18045

Dear Mr. Chilk:

We have reviewed the proposed rulemaking on Licensing Requirements for Pending Construction Permit and Manufacturing License Applications and have the following comment.

We found no reference in the proposed rulemaking to the reformulation of siting policy, one of the licensing requirements for the pending applications listed in NUREG-0718. Neither is the status of siting-policy reformulation discussed in the Supplementary Information, and it is not clear how these pending applications will be affected by that policy.

The opportunity to review this document is appreciated.

Sincerely,

CECIL S. HOFFMANN

Special Assistant to  
Assistant SECRETARY
