SUBJECT: Waterford SES Unit No. 3
Docket No. 50-382
Safety Evaluation Report Open Items

REFERENCE: NRC letter from D. G. Eisenhut to D L. Aswell dated May 15, 1981

Dear Mr. Eisenhut:

In response to the referenced letter we are enclosing a listing of the current status of SER open items. This listing addresses the sixty-five items that were the subject of your letter as well as items 66 through 94 that were informally provided to us subsequent to your letter.

Where we believe we have already responded to an item the means of response is noted. Where more than one item will be satisfied by a common response only the first is addressed with the later item(s) being referred to the first. Where no specific date can be provided at this time we have noted that the item is "open". Other explanatory notes are found on the listing.

If I can be of further assistance in this matter, please call.

Very truly yours,

L. V. Maurin
