SUBJECT: CONTAINMENT HIGH RANGE RADIATION MONITOR
(TMI ACTION PLAN ITEM II.F.1)

REF: LETTER TXX-3348; CONTAINMENT HIGH RANGE
RADIATION MONITOR; JUNE 23, 1981

Dear Mr. Burwell:

In item 3 of the referenced letter it has been suggested that we were taking exception to the "Special Calibration" and "Special Environmental Qualification" requirements of NUREG-0737. This was not our intent. Note that the letter clearly states that our commitments were based on a "preliminary", "on-going" evaluation. We had not progressed to the point of discussing the requirements with prospective vendors. It is our intent to have such discussions to assure meeting all the requirements of NUREG-0737.

If you have any questions, please call.

Sincerely,

H. C. Schmidt
