Dear Mr. Chairman:

Enclosed is a letter from my constituent, Stanley
Mendes, strongly proposing an independent review by
the State of California of the earthquake safety
features at the Diablo Canyon nuclear facility.

I am interested in your suggestions on how the
State of California might go about forming this kind
of independent review board.

Any information you can send me on this issue
would be greatly appreciated.

Sincerely,

ROBERT J. LAGOMARSINO

Dear Congressman Lagomarsino:

On October 20, 1981, the Ventura County Board of Supervisors
voted (5-0) to support the request of its neighbor, County
of Santa Barbara, and request that Governor Brown consider
the feasibility of a detailed independent review by the
State of California of the earthquake safety features of
the Diablo Canyon nuclear facility.

Your support for Ventura and Santa Barbara County's position
would be greatly appreciated by the people here and elsewhere
in California.

I would be pleased to discuss this matter with you at your
convenience.

Very sincerely yours,

Stanley H. Mendes
Structural Engineer
