License No. 29-16946-01
Expiration Date: March 31, 1981

Gentlemen:

SUBJECT: NOTICE OF EXPIRED LICENSE

This refers to the telephone discussion between Mr. J. Davis of this office and R. Scheible of your staff on October 6, 1981. The subject of the discussion was the fact that NRC records show that the Byproduct License identified above has expired and no renewal application has been filed in accordance with Section 30.37 of Title 10, Code of Federal Regulations, Part 30.

From our discussions we learned that you do not have any licensed material in your possession. Therefore, you must take the following actions:

1. Prepare a statement which explains the method of disposal of the materials -- what material was involved, how it was disposed of or to whom it was shipped, and when this was done.
2. If the activities conducted under the expired license were subject to the reporting requirements of 10 CFR Part 20, Section 20.407, you must submit the annual report required by 20.407 for the current calendar year and a termination report required by Section 20.408 for individuals engaged in activities under the expired license. Those reports must be submitted to the Director of Management and Program Analysis, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

A copy of the statement shall be sent, within thirty days of the date of this letter, to Region I, U.S. Nuclear Regulatory Commission, Attention: Chief, Materials Radiological Protection Section, 631 Park Avenue, King of Prussia, Pennsylvania 19406.
