

NOV 20 1981

Docket No. 50-460, 50-513

Washington Public Power Supply System  
P. O. Box 968  
3000 George Washington Way  
Richland, Washington 99352

Attention: Mr. D. W. Mazur  
Program Director, WNP-1/4

Gentlemen:

Subject: NRC Inspection of Washington Nuclear Projects 1 and 4

This refers to the inspection conducted by Messrs P. P. Narbut and G. Hernandez of this office on August 31 - September 4, and September 14-18, 1981 of activities authorized by NRC Construction Permit Nos. CPPR-134 and CPPR-174, and to the discussion of our findings held with Mr. D. W. Mazur and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Based on the results of this inspection, it appears that one of your activities was not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A.

It appears that the quality performance of your heating and ventilation contractor needs additional attention. Subsequent to the initial allegations in January 1981 which resulted in six items of noncompliance, additional allegations and inspections have determined that significant quality problems are continuing. Consequently, in your reply you should describe in particular those actions taken or planned to improve the effectiveness of your management control system to detect and control problems of this nature.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractors) believe to be exempt from disclosure under 10 CFR 9.5(a)(4), it is necessary that you (a) notify this office by telephone within ten (10) days from the date of this letter of your intention to file a request for withholding; and (b) submit within 25 days from the date of this letter a written application to this office to withhold such information. If your receipt of this letter has been delayed such that less than seven (7) days are available for your review, please notify this office promptly so that a new due date may be established. Consistent with section 2.790(b)(1), any such application must be accompanied by an affidavit executed by the owner of the information which identifies the document or part sought to be withheld, and which contains a full statement of the basis on which it is claimed that the information should be withheld from public disclosure. This section further requires the statement to address with specificity the considerations listed in 10 CFR 2.790(b)(4). The information sought to be withheld shall be incorporated as far as possible into a separate part of the affidavit. If we do not hear from you in this regard within the specified periods noted above, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

B. H. Faulkenberry  
Chief, Reactor Construction Projects  
Branch
