Mr. Louis J. Carter, Chairman  
Atomic Safety and Licensing Board  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Carter:

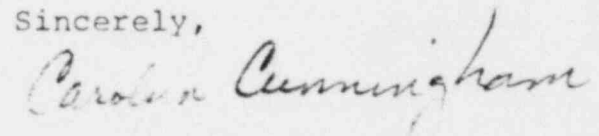

We wish to make a limited appearance on our concerns about Indian Point at the upcoming hearings.

FCWC is a private, non-profit, environmental coalition of individuals and fifty organizations which has worked for the protection and enhancement of Westchester's natural resources for the past sixteen years.

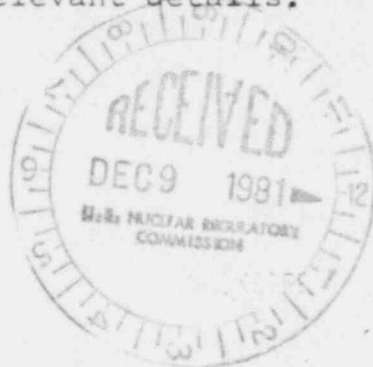

We have several concerns about the operation of the Indian Point nuclear plants including the lack of emergency planning. We wish to present a statement of these concerns at the hearing.

Please advise us of time and place and other relevant details.

Sincerely,

Carolyn Cunningham  
Executive Director
