

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

December 15, 1981

Ms. Dorothy R. Harris, Secretary
Regulatory Affairs
New England Nuclear, Medical
Diagnostics Division
601 Treble Cove Road
North Billerica, MA 01862

IN RESPONSE REFER
TO FOIA-81-496

Dear Ms. Harris:

This is in response to your letter of November 11, 1981, which was referred to the Nuclear Regulatory Commission (NRC) from the Food and Drug Administration, in which you requested, pursuant to the Freedom of Information Act, a copy of the notes of a one-day NRC Advisory Committee Meeting held in Chicago in August 1981.

This document, entitled "Advisory Committee on the Medical Uses of Isotopes" and dated August 31, 1981, has already been made available for public inspection and copying at the NRC Public Document Room (PDR), 1717 H Street, N.W., Washington, DC 20555. The charge for reproducing records located in the PDR is five cents (\$0.05) per page, as specified in 10 CFR 9.14(a). A copy of this document can be purchased by writing directly to the PDR. Please refer to the document by name, date and File PR-35. There are approximately 180 pages in the document. This includes the 140-page text and about 40 pages of related correspondence. Upon your agreement to pay the reproduction charges, the PDR will arrange for the records to be reproduced by Literature Research Company, a private reproduction contractor servicing the PDR. You will be billed by Literature Research Company for the reproduction charges, plus tax and postage.

This completes NRC action on your request.

Sincerely,

A handwritten signature in dark ink, appearing to read "J. M. Felton", written over a circular stamp.

J. M. Felton, Director
Division of Rules and Records
Office of Administration
