AFFIDAVIT OF KENNETH E. BEALE
REGARDING INTERVENOR'S MOTION TO REOPEN THE
RECORD ON EMERGENCY CONTENTION (CONTENTION A8)

Kenneth E. Beale, being first duly sworn according to
law, comes forward and states:

My name is Kenneth E. Beale. I am employed by South
Carolina Electric & Gas Company as Emergency Planning
Coordinator. In this position I am responsible for coordi-
nating all emergency planning activities for corporate
management organization, external offsite organizations, and
the V. C. Summer Nuclear Station emergency organization. I
am also responsible for insuring the installation and testing
of the Applicants' offsite emergency warning system (sirens).
A statement of my professional qualifications has already
been entered into the record of these proceedings.

As of December 17, 1981, all sirens composing the
Public Alerting System for the V. C. Summer Nuclear Station
have been installed, energized, and individually tested.
There are 104 sirens in the system. The central control
system for the 104 siren network is undergoing testing at

T. C. NICHOLS, JR.
VICE PRESIDENT AND GROUP EXECUTIVE
NUCLEAR OPERATIONS

Dear Resident,

South Carolina Electric & Gas Company has installed a siren warning system for persons living within 10 miles of the Summer Nuclear Station.

Your home is in this 10-mile area. SCE&G would like your help in learning how well the siren system works.

During November and December, each siren was individually tested to make sure that it worked properly. SCE&G is now ready for a complete system test of these sirens. The test will be during the week of January 25, 1982.

After the test, please fill in the enclosed card and mail it back to SCE&G. The information that you give will help us learn if we need to make any changes in the siren system.

SCE&G appreciates your help with this testing. If you have any questions about the test, please call our Nuclear Information Office at 345-1720, or 635-6454. Thank you.

Sincerely yours,

T. C. Nichols, Jr.
