NUREG-0801: Control Room Design Review
Request for Extension to Comment Period.
(File: 1510, 2-1510)

Gentlemen:

The purpose of this letter is to request a 60-day extension of the comment period on NUREG-0801 beyond the current December 28, 1981, deadline. This would enable our staff to finalize a more meaningful technical assessment for consideration in establishing the basis for working with the NRR on the control room design review issue.

Sincerely,

William Cavanaugh III
