Dear Mr. Palladino,

OFFICE OF THE SECRETARY  
DOCKS, PORTS & SERVICE  
BRANCH

I am opposed to The NRC  
issuing a low-power test license  
for The San Onofre Nuclear  
Generating Station, Unit 2. I  
would like to see an independent  
review made of SONGS 2.

There are too many technical  
problems & flaws for it to be  
considered safe.
