Indian Orchard, Massachusetts 01151

Gentlemen:

Subject: Inspection 81-01

This refers to an inspection conducted by a representative of the South Carolina Department of Health and Environmental Control on September 4, 1981 of a shipment of radioactive waste shipped from your Indian Orchard, Massachusetts facility on September 2, 1981. The shipment was inspected upon its arrival at the Chem-Nuclear Systems, Inc. burial site at Barnwell, South Carolina.

Areas examined during this inspection are described in the report by a representative of the South Carolina Department of Health and Environmental Control, which is attached to the Office of Inspection and Enforcement Inspection Report enclosed with this letter. The inspection consisted of a review of shipping papers, placarding, marking and labeling, radiation measurements, selective contamination surveys, and examination of the packages and the tractor-trailer.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements as set forth in the Notice of Violation enclosed herewith as Appendix A. The violation in Appendix A has been categorized at the severity level described in accordance with the Interim Enforcement Policy as published in the Federal Register (45 FR 66754) October 7, 1980. You are required to respond to this letter, and in preparing your response you should follow the instructions specified in Appendix A.

The violation in Appendix A has already been the subject of enforcement action by the State of South Carolina. On September 25, 1981, the State of South Carolina assessed a civil penalty of One Thousand Dollars against you and required you to submit evidence that adequate measures had been implemented to ensure compliance with all applicable provisions of Federal and State law. In view of the circumstances surrounding this matter, we have exercised our discretion under the Interim Enforcement Policy (45 FR 66754), October 7, 1980, and have chosen to issue the enclosed Notice of Violation. After reviewing your response to this Notice of Violation and your proposed corrective actions, the NRC will determine whether further enforcement action is necessary in order to ensure compliance with regulatory requirements.
