Mr. A. Schwencer, Chief
Licensing Branch #2
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: LaSalle County Station Unit 1
Target Fuel Load Date
NRC Docket No. 50-373

Reference (a): L. O. DelGeorge letter to
A. Schwencer dated December 15,
1981.

Dear Mr. Schwencer:

The purpose of this letter is to provide a revised date for LaSalle County Station Unit 1 fuel load. The date provided in Reference (a) is being revised to allow for the additional time it has taken to conduct the preoperational tests and implement the changes necessary to insure the test requirements are met. Additionally, the completion of structural steel changes, hanger installation and inspections have also impacted the ability to meet the January 31, 1982 fuel load date.

Based on the above, the revised fuel load date for LaSalle County Station Unit 1 is March 15, 1982.

If there are any further questions in this regard, please contact this office.

Very truly yours,

C. E. Sargent
