Survey (Generic Letter 82-01)"

Subject: Response to Generic Letter 82-01; New Applications Survey

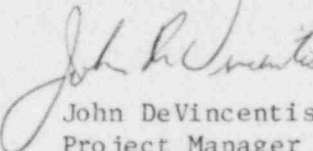

Dear Sir:

PSNH filed an application to construct and operate Seabrook Station Unit 1 and Unit 2 on March 30, 1973. This joint application was subsequently amended (Amendment 43, docketed October 5, 1981) to submit the Seabrook FSAR, ER, and General and Financial Information, thus, initiating the operating license review.

PSNH does not intend to construct additional nuclear power plants and, therefore, will not file applications of the type you have specified in your letter.

Very truly yours,

YANKEE ATOMIC ELECTRIC COMPANY

John DeVincentis
Project Manager
