Mr. Richard E. Cunningham, Director  
Division of Fuel Cycle and Material Safety  
Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Cunningham:

With this letter, Nuclear Fuel Services, Inc. (NFS) submits to the Nuclear Regulatory Commission an application for amendment of License No. CSF-1.

Based on discussions with representatives of the New York State Energy Research and Development Authority (NYSERDA) and the United States Department of Energy (DOE), it is my understanding that both NYSERDA and DOE support this application, and NYSERDA by separate letter will join in this application.

The amendment would add a Paragraph 8 to License No. CSF-1. The language of the amendment is as follows:

8. Effective upon (1) acceptance of surrender and assumption of responsibility for the facility by the New York State Energy Research and Development Authority ("NYSERDA") from NFS; (2) DOE's assumption of exclusive possession and control of the facility in accordance with Paragraph 7; and (3) the settlement date of the Settlement Agreement, Stipulation and Order in Civil Actions No. 81-18E and 81-683E in the United States District Court for the Western District of New York:
  - A. The authority and responsibility of NFS under the license is terminated. Notwithstanding such termination, NFS shall promptly transfer to NYSERDA all records in the possession of NFS that are maintained pursuant to the license that have not been previously transferred to DOE.
  - B. All references in Paragraph 7 to "licensee," "licensees," "licensees under this license, as their respective interests under this license appear," or "licensees as their respective interests under this license appear" shall thereafter refer exclusively to NYSERDA.
  - C. Indemnity Agreement No. B-29 shall be modified to conform to the change in the authority and responsibility described in subparagraphs A and B of this Paragraph 8.
