Dear Mr. Eisenhut:

On December 29, 1981, we forwarded to you our response on the "Generic Safety Evaluation Report Regarding Integrity of the BWR Scram System Piping". Due to administrative oversight, there are three errors with this letter. First; page 1, last paragraph ASME section referenced should be XI not IX. Second, on page three, paragraph one, the stated date should be 1982 not 1981. Third, docket numbers were not included on the letter.

It is our understanding that due to the omission of specific document numbers, a copy of the original letter has been docketed against Limerick Generating Station, Docket Nos. 50-352 and 50-353.
