Hon. Peter F. Cohalan  
Suffolk County Executive  
Veterans Memorial Highway  
Hauppauge, New York 11788

Dear Mr. Cohalan:

Thank you for your letter of December 1, 1981 in which you advise that the Suffolk County Planning Department is in the process of developing an evacuation plan for the South Fork of Long Island in the event of a nuclear accident at the Shoreham Nuclear Power Station.

Please be advised that this writer is absolutely appalled that the Federal Government permitted the Long Island Lighting Company to commence the construction of a nuclear power station before it was ascertained whether it will be feasible to evacuate the South Fork in case of a nuclear accident.

You are therefore urged to act immediately on the following:

1. As County Executive, to do everything in your power to halt the construction of the Shoreham Nuclear Power Station.
2. To schedule a meeting with Senator Moynihan, Senator Alfonse D'Amato and Congressman Carney together with the government officials of the east end of Long Island so we may discuss the necessity of calling for a congressional investigation of the Nuclear Regulatory Agency for their gross negligence in this matter.

In closing, Mr. Cohalan, is it reasonable to think that there is a possibility that the Suffolk County Planning Department is

December 11, 1981

being pressured to tailor the feasibility of an evacuation plan to accommodate the fact that the Shoreham Nuclear Power Station is 85% completed, especially when the Long Island Lighting Company is footing the bill for this plan?

Best wishes for the Holiday Season.

Sincerely,

*Richard G. McCollum*

RICHARD G. MCCOLLUM, *RGD*  
Chairman  
Planning Board
