

1/30/82

Please take note that:

Beside the facts that I know relatives living in the area of T.M.I., a nuclear power plant doesn't belong next to a famous candy factory, and that as a part master in the welding trades I feel there isn't enough steel in North America to make a safe containment

I oppose Three Mile Island unit 1 (over) Re-start

I also oppose it on the premise that I don't want my Federal Govt. to subsidize nuclear energy from taxes I pay.

sincerely,

Samuel [Signature]
