Sandy, UT 84091

License: 43-07608-01

Expiration Date: November 30, 1977

Gentlemen:

Subject: Notice of Violation

This refers to the telephone discussion between Mr. D. B. Spitzberg of this office and Eugene Steed of your organization on December 21, 1981. The subject of the discussion was the fact that NRC records show that the Byproduct Materials License identified above has expired and no renewal application has been filed in accordance with Section 30.37 of Title 10, Code of Federal Regulations, Part 30.

From our discussion with your representative we learned that you still possess material which requires a specific NRC license. Your possession of that material without a valid, specific license is a violation of Section 30.3, 10 CFR Part 30. Section 30.3 states:

Section 30.3 Activities requiring license. Except for persons exempt as provided in this part and Part 150 of this chapter, no person shall manufacture, produce, transfer, receive, acquire, own, possess, use, import or export byproduct material except as authorized in a specific or general license issued pursuant to the regulations in this chapter.

This Notice of Violation is sent to you under the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit a written reply to this notice explaining the steps you have taken to correct this situation. In accordance with the information conveyed to us in the telephone discussion, we understand that you will divest yourself of the material immediately, in a lawful manner. In your reply to this notice include a statement which explains the method of disposal of the materials, including: what material was involved, how it was disposed of or to whom it was shipped, and when this was done.

Your reply to this Notice of Violation shall be sent, within 30 days of the receipt of this letter, to Region IV, U. S. Nuclear Regulatory Commission, 611 Ryan Plaza Dr., Suite 1000, Arlington, Texas 76011, Attention: Glen D. Brown, Chief, Technical Inspection Branch.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.
